The MCC is the catalan choral confederation formed by choral federations of Catalonia (30,000 singers in total and 500 conductors). Its objectives are to coordinate the activity of different federations, promote choral singing in Catalonia and promote Catalan choral singing abroad. At the national level MCC is developing the National Youth Choir in cooperation with ACPCANT (Catalan Singing Teachers Association) and ESMUC (Catalan High Music School).

FIELDS OF ACTIVITY

European network

Its European vocation led her to organize the festival EUROPA CANTAT in Barcelona in 2003. This festival was left to inherit the idea of Mediterranean Office for Choral Singing. This office is a regional center of European Choral Association - Europa Cantat and is funded and led by the Catalan Choral Movement.

Meeting of choral specialists

The office organizes the annual meeting of choral specialists from the Mediterranean area (Mediterranean Choral Forum). It's a meeting point for representatives of the Mediterranean area and it's a choral space for creation and promotion projects such as Mediterranean Voices Conference (Girona 2013). Moreover, MOCS (Mediterranean Office for Choral Singing) organizes the annual Inclusion and Choral Singing Conference and the Annual Convention on Choral Singing.

CONTRIBUTION TO LEO SINGS!

MCC is hosting a session in Barcelona in cooperation with several partners in the territory as silent partners. The topic of the session is about training paths.
